

DWci DISPLAY WARMING CABINET

DESIGNED SMART. BUILT SOLID.

APW
wyott
A Standex Company

Simple
Efficient
Attractive

Simple to use countertop display cabinets from APW Wyott provide adjustable shelves for merchandising products of any size and shape.

Efficient small footprint and tower design maximize the use of counter space. (14"W x 14"D x 22"H)

Attractive Design and lighted interior catch attention and drive impulse sales for a variety of foods.

Display Warming Cabinet

Attractive domed cover draws attention and can easily be merchandised with add-on “food decals”

Snap-shut glass door provides visibility while insuring a sanitary display environment for wrapped and unwrapped foods.

Adjustable display shelves slant forward, presenting food in the best visibility and access.

Stainless Steel construction and tempered glass side panels guarantee longer life and return on investment.

Removable shelves and stainless steel interior allow easy access and quick cleaning with only a damp cloth.

Safe warming elements keep foods at the perfect temperature for extended periods of time.

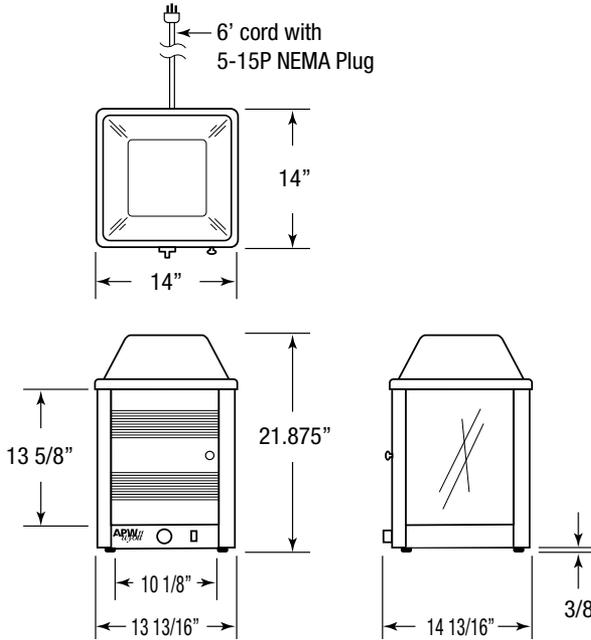

Circulating fan insures consistent temperature throughout the cabinet and helps unit quickly recover “safe temperatures” when doors are open.
