FAST

COMPACT

TOUGH

Fast bun toasting model options

offer volume choices of 865 to 1300 bun halves per hour, with rapid heat-up allowing you to easily meet surges in production volume.

Compact vertical design means high

production volumes in tight counter spaces.

Tough stainless steel construction

will provide years of toasting performance, and nickel-plated steel griddle plate stands up to years of grilling and cleaning

Bun Grill Toaster

M-95

Multiple speed gear options, enable cooking speeds specifically tailored to your kitchen needs, resulting in the desired toasted bun surface and internal bun temperature

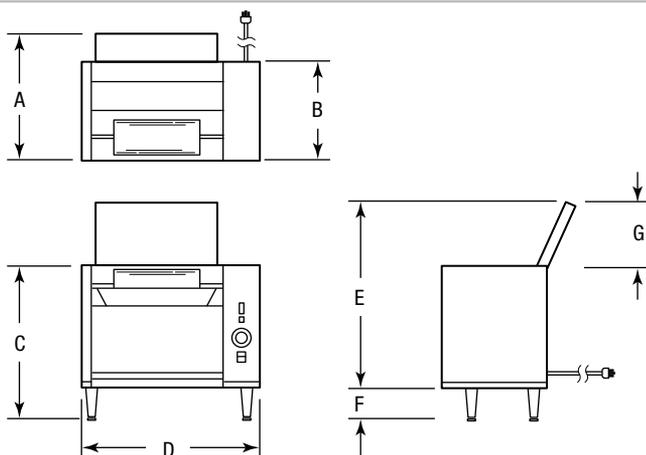

Bun Grill toasters are available with extended Superfeed, to allow for high volume production

Units have patented “self-leveling” conveyor that automatically adjusts to various sizes of buns, bagels, and Texas toasts

Bun Grill toasters have a removable side panel for service, and removable conveyor paddle system for easy cleaning of the conveyor and the griddle plate
